Aktories, K., s. Grolig, F.	
Aldon, D., s. Faure, J.-E.	
Behnke, H.-D., Eberhard Schnepf – on the occasion of his retirement – Endoplasmic reticulum derived decorated tubules in the sieve elements of <i>Nymphaea</i> . . . . .	213
Bianciotto, V., Minerdi, D., Perotto, S., Bonfante, P., Cellular interactions between arbuscular mycorrhizal fungi and rhizosphere bacteria . . . . .	123
Bonfante, P., s. Bianciotto, V.	
Brown, R. M. Jr., s. Tsekos, I.	
Devidé, Z., s. Ljubešić, N.	
Dietz, C., Schnetter, R., Arrangement of F-actin and microtubules in the pseudopodia of <i>Cryptochlora perforans</i> (Chlorarachniophyta) . . . . .	82
Dumas, C., s. Faure, J.-E.	
Eberwein, R. K., s. Schmid, A.-M. M.	
Eleftheriou, E. P., Developmental features of protophloem sieve elements in roots of wheat ( <i>Triticum aestivum</i> L.) . . . . .	204
Elsner-Menzel, C., s. Menzel, D.	
Faure, J.-E., Aldon, D., Rougier, M., Dumas, C., Emerging data on pollen tube growth and fertilization in flowering plants, 1990–1995 . . . . .	132
Galatis, B., s. Reiss, H.-D.	
Glockmann, C., Kollmann, R., Structure and development of cell connections in the phloem of <i>Metasequoia glyptostroboides</i> needles. I. Ultrastructural aspects of modified primary plasmodesmata in Strasburger cells . . . . .	191
Grolig, F., Just, I., Aktories, K., ADP-ribosylation of actin from the green alga <i>Chara corallina</i> by <i>Clostridium botulinum</i> C2 toxin and <i>Clostridium perfringens</i> iota toxin . . . . .	77
Hausmann, K., s. Radek, R.	
Hesse, M., s. Schmid, A.-M. M.	
Jonitz, H., s. Menzel, D.	
Just, I., s. Grolig, F.	
Katsaros, C., s. Reiss, H.-D.	
Kluge, M., s. Mollenhauer, D.	
Kollmann, R., s. Glockmann, C.	
Lazzaro, M. D., Thomson, W. W., The vacuolar-tubular continuum in living trichomes of chickpea ( <i>Cicer arietinum</i> ) provides a rapid means of solute delivery from base to tip . . . . .	181
Ljubešić, N., Wrischer, M., Devidé, Z., Chromoplast structures in <i>Thunbergia</i> flowers . . . . .	174
Menzel, D., Jonitz, H., Elsner-Menzel, C., The perinuclear microtubule system in the green alga <i>Acetabularia</i> : anchor or motility device? . . . . .	63
Minerdi, D., s. Bianciotto, V.	
Mollenhauer, D., Mollenhauer, R., Kluge, M., Studies on initiation and development of the partner association in <i>Geosiphon pyriforme</i> (Kütz.) v. Wettstein, a unique endocytobiotic system of a fungus (Glomales) and the cyanobacterium <i>Nostoc punctiforme</i> (Kütz.) Hariot . . . . .	3
Mollenhauer, R., s. Mollenhauer, D.	
Müller, D. G., Wolf, S., Parodi, E. R., A virus infection in <i>Myriotrichia clavaeformis</i> (Dictyosiphonales, Phaeophyceae) from Argentina . . . . .	58
Okuda, K., s. Tsekos, I.	
Parodi, E. R., s. Müller, D. G.	
Perotto, S., s. Bianciotto, V.	
Radek, R., Rösel, J., Hausmann, K. Light and electron microscopic study of the bacterial adhesion to termite flagellates applying lectin cytochemistry . . . . .	105
Reiss, H.-D., Katsaros, C., Galatis, B., Freeze-fracture studies in the brown alga <i>Asteronema rhodochortonoides</i> . . . . .	46
Rösel, J., s. Radek, R.	
Rougier, M., s. Faure, J.-E.	
Schmid, A.-M. M., Eberwein, R. K., Hesse, M., Pattern morphogenesis in cell walls of diatoms and pollen grains: a comparison . . . . .	144
Schnetter, R., s. Dietz, C.	
Stockem, W., s. Topf, P.-M.	
Theis, M., s. Topf, P.-M.	
Thomson, W. W., s. Lazzaro, M. D.	
Topf, P.-M., Theis, M., Stockem, W., Uptake and intracellular transport pathways of fluorescent lipid analogues in <i>Amoeba proteus</i> (Rhizopoda: Amoebida) . . . . .	91
Tsekos, I., The supramolecular organization of red algal cell membranes and their participation in the biosynthesis and secretion of extracellular polysaccharides: a review . . . . .	10
– Okuda, K., Brown, R. M. Jr., The formation and development of cellulose-synthesizing linear terminal complexes (TCs) in the plasma membrane of the marine red alga <i>Erythro-cladia subintegrata</i> Rosenv. . . . .	33
Wolf, S., s. Müller, D. G.	
Wrischer, M., s. Ljubešić, N.
